🟡 SNAPCHAT

ABOUT SNAPCHAT

Snapchat (Snap Inc.) is a picture sharing application targeting 13-24 year-old users. One of the most desirable aspects of Snapchat is that pictures are only available for a limited amount of time, seemingly "disappearing" after being viewed twice. The best way to be informed about your student's Snapchat account is to ask them questions.

HERE ARE A FEW CONVERSATION STARTERS:

Why do you like being on Snapchat?

How many viewers see your story?

How many people are you friends with?

Is your Ghost Mode turned on? Can you show me?

What do you do when you receive a message from someone you don't know if they are not your friend and you haven't added them?

Are you using My Eyes Only for your memories? Can you show me?

Have you ever received a nude snap?

What do you do if you receive a nude snap from a classmate?

What do you do if you receive a nude snap from a stranger?

Do you feel Snapchat brings joy to your life?

Do you wish Social Media was never invented?
