FROM THE PRINCIPAL:

Arbor View Families,

The kids and teachers will be celebrating the end of the semester on

Friday, December 20th. We will have a performance from the Omaha

Street Percussion at 1:30. We are excited about it! The kids and teachers have worked hard to learn a lot this semester.

Each grade level will have an opportunity to play BINGO in the morning.

If you have any non-edible donations you'd be willing to donate as

prizes, we would be most appreciative. Those can be dropped off in the office.

Thank you to our awesome health screen volunteers. We couldn't have done it without you!

If your child had results that indicated a need for further evaluation, you should be receiving those referrals in the mail. Once they see a health care provider please return a copy of the completed referral, so I can update your student's health information. Thank you!

As we head into the winter months, we see an increase in cold and flu symptoms. Please keep your child home if they have a fever of 100* or greater, vomiting/diarrhea, persistent cough, unknown rashes, pink eye, or in general not feeling well. This helps your child get well faster, and helps reduce the spread of germs to other students and staff.

Tech Savvy Parent Tips - Apps to Know

TikTok is a social media app that allows users to generate video content including singing, dancing, or simply talking, as well as interact with other user's content covering a wide variety of topics. Similar to other social media apps, TikTok accounts are created with a default privacy setting of Public, allowing any user to interact with the content posted, send private messages, and capture location information. To protect youth utilizing TikTok, a user account can be set to Private to allow only Friends to see and interact with posted content and Location Sharing may also be turned off completely.

TikTok focuses mainly on music, so there is a potential that youth utilizing the app will encounter age-inappropriate content. TikTok does attempt to prevent this by hosting a separate section for children that allows access only to clean, curated videos and disabling commenting, searching, or posting their own videos. However, due to the ability to circumvent the required process that enable the Children's section, Common Sense media suggests the app be used for ages 16+.
