# Career Awareness Program

Why is career exploration so important?

The goal of early career exploration is to encourage you to explore a variety of careers to find out what you like, or what you don't like. Seeing what careers are out there, connecting with employers, talking to human resource departments to learn what they look for in their applicants, spending time immersed in those careers! "Having an initial road map, and changing course after thoughtful consideration, far outweighs getting on the road with no clear direction!" -Thalia Thompson

Think about it this...what is your favorite food? How did you decide that was your favorite food? YOU TRIED IT! The same holds true for careers, how do you know that career is your favorite career if you've never tried it? Try a variety because you never know, until you try!

## How can I explore careers?

- Career Camps, Fairs, & Tours
- Career Exploring Program
- Job Shadow
- Career Internship
- Teacher Cadet
- Part-Time Jobs

# Career Awareness Program

Through partnerships with local businesses, students can link their core curriculum with the world of work and develop skills, habits, and attitudes that will prepare them for future employment success. Students engaging in Career Awareness Program activities with these business partners can enhance their personal growth and gain assistance with making wise career choices. The Career Awareness Program is a natural partnership between the classroom and the workplace.

Where do I go to see what opportunities are available?

- Go to the school's homepage
- Academics
