Why is career exploration so important?

The goal of early career exploration is to encourage you to explore a variety of careers to find out what you like, or what you don't like. Seeing what careers are out there, connecting with employers, talking to human resource departments to learn what they look for in their applicants, spending time immersed in those careers! "Having an initial road map, and changing course after thoughtful consideration, far outweighs getting on the road with no clear direction!" -Thalia Thompson

Think about this...what is your favorite food? How did you decide that was your favorite food? YOU TRIED IT! The same holds true for careers, how do you know that career is your favorite career if you've never tried it? Try a variety because you never know, until you try!

How can I explore careers?

- Career Camps, Fairs, & Tours
- Career Exploring Program
- Job Shadow
- Career Internship
- Teacher Cadet
- Part-Time Jobs
