ELKHORN MIDDLE SCHOOL

From The Desk Of The Principal

Many important things are scheduled during the month of April – the most important being state testing. A testing schedule is included below and we ask for parents' continued support in avoiding test days for appointments or vacations. We know our students are prepared for these tests and will perform very well!

As we enter the 4th quarter, we at EMS will maintain high expectations and an academic focus. We would ask that you continue to check your child's progress on a regular basis and contact the school if you have any questions. We will work hard to keep students motivated and engaged. You can help us maximize learning by continuing to talk to your child about school and your expectations for them – all the way to the end of the year.

Testing Schedule

April and May will be busy months for assessments for Elkhorn students. All students at EMS will be taking state tests (NSCAS—formerly known as NeSA) as well as a final administration of MAP tests for this year. Our testing schedule is as follows:

April 1-5:	NSCAS-ELA
April 8-12:	NSCAS-M
April 15-18:	NSCAS-S (8th only)
Apr 29– May 10:	Spring MAP

Please make sure your student(s) are getting plenty of sleep and eating a good breakfast on testing days. **If you can avoid having your student miss school during these days, it would be much appreciated.** If you have questions regarding the testing schedule for your child, please contact the office at 289-2428.

Make-up Days for Missed School Days

Cell Phones

A reminder that cell phones need to be turned off and out of sight during school hours. This has become an increasingly violated policy. We encourage parents to sit down with your child and review the number of phone calls and text messages that they received on a given day during school hours. Again, your cooperation with protecting the educational environment and allowing students to focus on their schooling is greatly appreciated!

Dress Code Reminder

The Middle School dress code has been one of common sense, parental approval, and personal pride. Like behavior, an individual's dress should reflect sensitivity and respect for themselves and others. The following directions governing dress and personal grooming seek to encourage the student to take pride in his/her appearance, and to aid the student in developing the habit of good taste in personal appearance.

The following clothing or types of dress are PROHIBITED:

1. Dress which causes or has the potential to cause either a substantial disruption or material interference with the educational process.
2. Clothing which is too short, too tight, too revealing, or is inappropriate for school.
3. Dress which contains vulgar or offensive words or symbols or is sexually explicit, indecent, or lewd. Dress which reflects lack of sensitivity or respect for others is unacceptable.
4. Dress which promotes, advocates, or advances the use of alcohol, tobacco, or illegal drugs, including clothing which displays the logo or trademark of any brand(s) of alcohol, tobacco, or illegal drugs.
5. Sagging pants are not appropriate for school. Pants should be worn so that undergarments are not higher than the pants. The length of shirt worn to cover up the undergarments is not relevant.
6. Any gang-related symbol worn, written, carried, displayed, or communicated will not be tolerated (i.e., hats, caps, coats, sagging pants, bandannas, pagers, and/or handkerchiefs). Hats and sunglasses may be worn to school, but will not be worn in the halls or in any classes.
7. Any items which would detract from the educational environment will not be acceptable.

Dress code violations will be addressed with students by counselors or Administrators. Parents will be notified of a dress code infraction and be asked to supply the appropriate clothing for the student immediately. If parents/guardians cannot supply appropriate clothing, the student will be given clothing to wear that day from a friend or possibly from the lost and found.

In Science, 6th graders are currently studying how animal adaptations and types of reproduction affect the survival and population of organisms. We will introduce how genetic traits pace from one organism to another. Our next unit will be weather. In this unit the students will understand what drives the weather. The students will track humidity, air pressure and dew points to investigate the affect of weather patterns.

Math 6 and Pre-Con students are doing final preparations for our state testing. The new state test is called NSCAS (Nebraska Student-Centered Assessment System). They will be competing in Math Madness and reviewing skills to help them be successful! NSCAS math testing will be April 8-12.

In Reading class, students will be reviewing for state testing which will happen April 1-5. The focus of 4th quarter will be finding main idea and supporting details in text. Please have students continue to read a minimum of 20 minutes per school night, and AR goals points for the 4th quarter are due Friday, May 10th.

The Social Studies class will focus on the geography and urban geography on the remainder of the year. The city of Omaha will be studied according to its growth and formation.

In Language Arts, Mr. Nordmeyer is leading practice for capitalization, commas, quotation marks, using the right word, and dialogue. Students will take a district assessment over these skills at the end of the month.

7th Grade News

Mr. Beard, Mrs. Burson, Mrs. Hingorani, Mrs. Hollman, Mrs. Kluender, Mrs. Yale, Ms. Meier, Mrs. Muldoon, Mrs. York, Mrs. Wells, Mrs. Matuella

In Science, 7th graders with Mrs. Wells will continue the Motion and Forces unit, studying physics topics. We will be investigating gravity, friction, and laws of motions through hands on activities. Our final unit of the year will be astronomy.

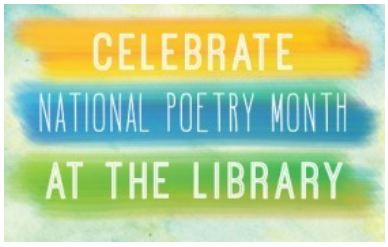
In reading, we will start the month taking the NSCAS, before finishing up non-fiction text structures and then moving on to a science fiction novel unit.

In World History, we will study the Renaissance and Reformation, Science and Exploration, the Enlightenment and Revolution and finish up the year studying the World Wars.

In Math, students are preparing to take the NSCAS, or formerly known as the NeSA test. Testing for students will occur April 8—12.

In Language Arts we will celebrate National Poetry Month by completing a poetry project. This will include writing, analyzing, and presenting poetry. For the remainder of the month, we will continue to study writing mechanics and end the month taking our final district common assessment.



8th Grade News

Mrs. Baumert, Ms. Gutschow, Mrs. Grisham, Mr. Hultman, Mrs. Collingsworth, Mrs. Barth, Mrs. Hollman, Mrs. Muldoon, Mrs. York, Mr. Preissler, Mrs. Valasek

Spring is finally here! We are looking forward to an eventful month. We will be giving the NSCAS-ELA the week of April 1st, the NSCAS Math test the week of April 8th, and the NSCAS Science will be given April 15-18. Please let your children know of the importance of these tests as they will help determine some of their high schools classes and activities. Attendance is crucial to the success of your student.

In Language Arts during the 4th quarter students will take their final District Common Assessment over writing and grammer skills. Please ask them if they are preparing and studying for this test in April. Our final writing unit will be the writing portfolio. This is a comprehensive writing project which will take place for the better part of the quarter.

In both Algebra and Pre-Algebra we will be preparing for and taking the NSCAS Math test.

In Science we are starting chemistry and learning about the properties of matter. Students will also be reviewing for NSCAS Science.

In Reading we will complete all 20 of our Vocabulary Units by the end of April. In the first two weeks of May, we will review for the Vocabulary DCA, our last DCA and last major test of the year.

In American History we will be studying the late 1800s and early 1900s Progressive Era.

2019-2020 Middle School Football Program Changes

I wanted to let you all know that starting next season all Elkhorn middle schools will be playing a Varsity/JV format combining 7th and 8th graders. Gretna middle schools will also be switching to this format. Our teams will play both Gretna MS's, and the other three Elkhorn MS's and finishing with one game against another EMC opponent. We were hoping to play our sixth game in a playoff format, but in order to help other EMC schools fill out their schedules we scheduled a cross over game with one other opponent next season.

As MS athletic directors, we are struggling to find the balance in maintaining our numbers out for football while competing with club football. We feel that this format will provide a new experience for kids that might help keep the number of kids out playing at the middle school level at an adequate level. It will also allow four coaches at each school to work together during practices to help reduce the learning curve for our players. The final piece to this puzzle was trying to create a competitive balance for our teams. In recent years some of school teams have had the large majority of the football talent in a particular grade level playing only club football. This was creating a large disparity in the talent gap with some of our opponents. For example, Waverly caps club football in 6th grade, so they have full 7th and 8th grade rosters with all kids interested in playing football playing for school. Switching to this model and playing mainly the other Elkhorn schools and Gretna should provide the opportunity for our kids to play similar levels of competition in an attempt to be more successful on the field and avoid being blown out in most games during the season which is discouraging to players and coaches.

Ultimately, we want all of our kids to still love the game of football at the end of the season and we want them to continue playing in high school. We hope that this is a big step towards continuing to have the freshman football numbers in each building stay at a high level.

Please let me know if you have any questions.

Sincerely, Steve Gorsett

With the ever changing age of internet and increased online access, youth are encountering various unknowns as they explore the technology at their fingertips. If your child uses the internet for social media or games, below are seven opening questions to start a conversation with your child to remind them of the importance of online safety.

1) Which apps and games are you and your friends engaging with currently?
2) Which websites do you enjoy frequenting and why?
3) Can you teach me how to play your favorite game/app?
4) Do you have any online friends?
5) Do you know where to go for help?
6) Do you know what is considered your personal information?
7) Do you know your limits? If not, let's talk about them together.
